Squarespace | WordPress

WORK EXPERIENCE

WordPress Developer
Paragon Design Group

05/2022 – Present
Remote

- Converted Figma and Photoshop design files into 16 custom WordPress websites and 7 static websites and provided ongoing support to clients by assisting in content entry, technical support and the creation of new custom features and components.
- Collaborated closely with designers to ensure proper website functionality, ease of user experience, mobile and tablet responsiveness, and WCAG compliance.
- Developed over 15 reusable custom React-based WordPress Gutenberg blocks allowing for more efficient WordPress website buildouts and increased feature customization for clients.

Squarespace Developer
JPW Design Studio

04/2021 – 05/2022
Remote

- Supported design team with technical and programming assistance on over 150 Squarespace websites, including the design of custom components and features.
- Provided comprehensive email, web, and domain hosting support to clients, including connecting and transferring custom domains, creating custom business emails, and troubleshooting connection issues.
- Perform search engine optimization using best practices and provide clients with SEO recommendations resulting in multiple clients with increased rankings on Google.

Production Supervisor | Electronics Technician
United States Navy
